***Charts Don't Lie* is your easiest and most inexpensive solution in unleashing the untold power of technical analysis...and start making money consistently in the market!**

Have you ever felt like a deer in headlights when being caught off-guard by the market when trading?

Do you know that majority of traders and investors missed great money-making opportunities because they over analyzed and ended up doing nothing..

..Only to see the price moves in accordance to their prediction in a velocity they can't imagine?

When that happens, they want to jump and join the bandwagon. But then, the same fear attacks them.

"What if the price is too high already? What if the momentum move is almost done and reversal is imminent?"

Then they do nothing again....and price keeps going to the direction they predicted before.

Dejected, they got angry and frustrated! They felt like they just got "punked" by the market!

WHY Analyze the Analyses?

Contrary to what many believe, neither technical analysis nor fundamental analysis was dead.

There is a trend --- can be found especially in social media --- going on nowadays where traders berate one

another because of disagreement towards the approach: *Fundamental or technical analysis*.

Instead of arguing over fundamental vs. technical analysis, this book works on covering the basics of each analysis (while covering ALL relevant details).

HOW This Book Benefits You?

First, filtering all the noises out there. Too many books, blogs, TV shows, financial personalities who talk about trading analysis. Most of them were good, but too many information is actually paralyzing.

This book will filter all those information for you, so you can --- with conviction and confidence --- use the ONE method outlined in the book.

Whether you are trading for a living, a beginner, an investor, investing for your retirement, or a seasoned professional, this book will help you to reach the next level.

WHAT You Will Learn

- 1)) How to optimize trading investing profits using relevant fundamental analysis without the blurbs and confusing jargon.
- 2) **How to minimize trading investing risks using technical analysis without the blurbs and confusing jargon.**
- 3) **Improved Trading Accuracy:** How to optimize your entry and exit with ONE secret method.
- 4) **Keeping your sanity: Taking out the “paralysis by analysis” out of the equation.**
- 5) **Follow the Trend:** The reason Jesse Livermore and Paul Tudor Jones both emphasized "*Never ever fight the tape!*"

Are you really doing what it takes to be a consistently profitable investor or trader, or just talking about it?

If you haven't already, get the FREE course **Zero to Trading:How to Double Your Trading Skills in 3 Days** from MoneyVersity.net/Zero-to-Trading

The course consists of secret basic sauces of what make traders consistently profitable.

Don't Leave Your Trading and Investing to Chances...

...because then frankly, you just gamble your money away. Might as well go to Vegas. More fun.

Trading is a respectable profession that requires commitment, determination, and persistence. The trading learning curve also requires your time, energy, and capital.

Technical analysis is just one tool but many times, the importance of technical analysis has gotten lost in the

noise of financial news and irrelevant fundamental analysis.

***Charts Don't Lie* is different because it strives to educate traders and investor who are never too tired to learn and improve their skills on how to use technical analysis the simple and straight-shooting way.**
