**Can You Hear Me Now? Applying Brain Research and Technology to Engage Today's Students** Jerry Michel, Lisa Nimz

The ever present new media, social sites, information, and global society have changed the way tech savvy people access information. But cognitive science tells us that today's students think in very much the same way students did in the past. The focus of this K-12 book is how educators can effectively deliver instruction that maximizes their students' ability to grow academically and emotionally amidst the "noise" of technology. This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills and supports core concepts of STEM instruction.
