DNA Nanotechnology: From Structure to Function

DNA Nanotechnology: From Structure to Function

DNA nanotechnology: From structure to function presents an overview of various facets of DNA nanotechnology, with a particular focus on their promising applications. This book is composed of three parts. Part I, Elements of DNA Nanotechnology, provides extensive basic information on DNA nanotechnology. Part II, Static and Dynamic DNA Nanotechnology, describes the design and fabrication of static and dynamic DNA nanostructures. Recent advances in DNA origami, DNA walkers and DNA nanodevices are all covered in this part. Part III, Applications of DNA Nanotechnology, introduces a variety of applications of DNA nanotechnology, including biosensing, computation, drug delivery, etc. Together these provide a comprehensive overview of this emerging area and its broad impact on biological and medical sciences.

This book is intended for post-graduates, post-doctoral researchers and research scientists who are interested in expanding their knowledge of DNA nanotechnology. It provides readers an impression of the latest developments in this exciting field.

From reader reviews:

Andrew Drake:

Reading a publication can be one of a lot of action that everyone in the world likes. Do you like reading book so. There are a lot of reasons why people enjoyed. First reading a reserve will give you a lot of new information. When you read a reserve you will get new information since book is one of numerous ways to share the information or their idea. Second, studying a book will make you more imaginative. When you examining a book especially fiction book the author will bring you to imagine the story how the figures do it anything. Third, you are able to share your knowledge to other people. When you read this DNA Nanotechnology: From Structure to Function, you are able to tells your family, friends in addition to soon about yours reserve. Your knowledge can inspire the others, make them reading a book.

Donald Shelby:

People live in this new day time of lifestyle always make an effort to and must have the extra time or they will get wide range of stress from both daily life and work. So , if we ask do people have extra time, we will say absolutely of course. People is human not really a huge robot. Then we inquire again, what kind of activity are there when the spare time coming to a person of course your answer can unlimited right. Then ever try this one, reading publications. It can be your alternative inside spending your spare time, the actual book you have read is definitely DNA Nanotechnology: From Structure to Function.

Tammy Jones:

In this period globalization it is important to someone to acquire information. The information will make professionals understand the condition of the world. The condition of the world makes the information quicker to share. You can find a lot of recommendations to get information example: internet, newspaper, book, and soon. You can see that now, a lot of publisher which print many kinds of book. Typically the book that recommended for your requirements is DNA Nanotechnology: From Structure to Function this book consist a lot of the information of the condition of this world now. This book was represented how do the world has grown up. The words styles that writer require to explain it is easy to understand. The writer made some analysis when he makes this book. This is why this book ideal all of you.

Juan Gilbert:

As a college student exactly feel bored to be able to reading. If their teacher requested them to go to the library or make summary for some book, they are complained. Just little students that has reading's internal or real their interest. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that examining is not important, boring along with can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this DNA Nanotechnology: From Structure to Function can make you experience more interested to read.
