## Encyclopedia of Asian Philosophy

Incorporating cultural and religious contexts, this unique Encyclopedia provides a vital guide to the main concepts and thinkers in Asian philosophy - starting with Abhidharma and ending with Zurvan.

The main philosophical trends and thinkers in each geographical area are featured, with an emphasis on endtemporany developments and movements. The A-Z structured encyclopedia emphasizes that Asian philosophy is not merely an ancient form of thought but that it is a living philosophy, with roots in the past, and also a potent and animate presence today. This translates into the reciprocal exchange of theories between Eastern and Western thinking, for example of new schools of thought such as orientalism. Requiring no prior knowledge of philosophy, religion or Asian cultures, this book is essential reading for students, teachers and the interested individual who wishes to gain an understanding of the philosophical basis to Asian cultural systems.
