Book 1 in the Area 51 series Since before the dawning of modern man, an alien mothership and nine abandoned flying saucers have been hidden away in Area 51, a top-secret military base in the Nevada desert. There, scientists have studied the crafts, hoping to unlock the secrets of the alien technology and, perhaps, the origins of life on Earth. But now a deranged general wants to activate the mothership's interstellar drive—and the consequences could prove catastrophic for humankind. Dr. Hans Von Seeckt—an elderly scientist, ex-Nazi, and original member of the Area 51 research team—joins up with the president's science adviser, Dr. Lisa Duncan, and Special Forces officer Mike Turcotte to put a stop to the planned test flight and tell the public the truth about Area 51. Meanwhile, a brilliant archaeologist, Professor Nabinger, discovers a message on runes found in ancient Egypt that could change everything we think we know about human evolution and the role that alien visitation may have played in it. From the Inside Flap When nine atmospheric crafts of unknown origin were discovered in the Antarctic in the late 1940s, the U.S. government established Area 51 to study the abandoned technology. Dr. Hans Von Seeckt, who is the only original member of the secret research committee, has observed the marvelous craft in flight and witnessed a fantastic array of bizarre, unexplained phenomena. But Dr. Van Seeckt fears that the technology of the mothership is beyond our scope and an explosive threat to the entire planet. He must race against time to unlock the secret of the ship--and to the origins of mankind itself.
