National Energy Plans in the Asia-Pacific Region is a collection of papers presented at Workshop III of the Asia-Pacific Energy Studies Consultative Group, held in Honolulu, Hawaii, at the East-West Center, from 25-28 February 1980.

The collection presents a framework for energy policies in the Asia-Pacific Region; energy policies of the United States, oil-exporting countries, industrial oil-importing countries, and countries importing more than and less than 50% of their oil requirements; and the role of international institutions in energy research. International energy policy makers and researchers will find the book invaluable.
