Just very little students that have reading's internal or real interest. They just do what the educator wants, like asked to go to the library. They go to the library but nothing is read very seriously. Any student feels that examining is not important, boring and can't see colorful pictures on there. Yeah, it is to be complicated. A book is very important for yourself. As we know that on this period of time, many ways to get whatever we wish. Likewise, word says, ways to reach China's country.
