## **The Ethics and Efficacy of the Global War on Terrorism: Fighting Terror with Terror (Twenty-first Century Perspectives on War, Peace, and Human Conflict)**

*The Ethics and Efficacy of the Global War on Terrorism* is a collection of recent and provocative articles by such influential figures as Noam Chomsky and Scott Atran. It presents a variety of perspectives and disciplines that critically examine significant ethical issues involved in the War on Terrorism. Concepts of terrorism, counterterrorism, and antiterrorism are explored within the context of how language frames and controls definition of the problem, potential solutions, viable actors, and outcomes. This book provides in-depth analyses of moral principles as applied to real-life events, as well as facts and ideas that are missing or underrepresented in the dominant narratives found in public discourse. The editors establish that there are viable nonviolent alternatives to the global war on terrorism and outline eight steps necessary to initiate a process of understanding and reconciliation that promises improved human security and sustainable peace.
