The Novel Cure: From Abandonment to Zestlessness: 751 Books to Cure What Ails You Ella Berthoud, Susan Elderkin

Publisher's Weekly

"Delightful... elegant prose and discussions that span the history of 2,000 years of literature."

A novel is a story transmitted from the novelist to the reader. It offers distraction, entertainment, and an opportunity to unwind or focus. But it can also be something more powerful—a way to learn about how to live. Read at the right moment in your life, a novel can—quite literally—change it.

The Novel Cure is a reminder of that power. To create this apothecary, the authors have trawled two thousand years of literature for novels that effectively promote happiness, health, and sanity, written by brilliant minds who knew what it meant to be human and wrote their life lessons into their fiction. Structured like a reference book, readers simply look up their ailment, be it agoraphobia, boredom, or a midlife crisis, and are given a novel to read as the antidote. Bibliotherapy does not discriminate between pains of the body and pains of the head (or heart). Aware that you've been cowardly? Pick up *To Kill a Mockingbird* for an injection of courage. Experiencing a sudden, acute fear of death? Read *One Hundred Years of Solitude* for some perspective on the larger cycle of life. Nervous about throwing a dinner party? Ali Smith's *There but for The* will convince you that yours could never go *that* wrong. Whatever your condition, the prescription is simple: a novel (or two), to be read at regular intervals and in nice long chunks until you finish. Some treatments will lead to a complete cure. Others will offer solace, showing that you're not the first to experience these emotions. *The Novel Cure* is also peppered with useful lists and sidebars recommending the best novels to read when you're stuck in traffic or can't fall asleep, the most important novels to read during every decade of life, and many more.

Brilliant in concept and deeply satisfying in execution, *The Novel Cure* belongs on everyone's bookshelf and in every medicine cabinet. It will make even the most well-read fiction aficionado pick up a novel he's never heard of, and see familiar ones with new eyes. Mostly, it will reaffirm literature's ability to distract and transport, to resonate and reassure, to change the way we see the world and our place in it.

Library Journal

"This appealing and helpful read is guaranteed to double the length of a to-read list and become a go-to reference for those unsure of their reading identities or who are overwhelmed by the sheer number of books in the world."
