Function Theory of Several Complex Variables (AMS Chelsea Publishing)

Steven G. Krantz

Function Theory of Several Complex Variables (AMS Chelsea Publishing) Steven G. Krantz

This work departs from earlier treatments of the subject by emphasizing integral formulas, the geometric theory of pseudoconvexity, estimates, partial differential equations, approximation theory, the boundary behavior of holomorphic functions, inner functions, invariant metrics, and mapping theory. While due homage is paid to the more traditional algebraic theory (sheaves, Cousin problems, etc.), the student with a background in real and complex variable theory, harmonic analysis, and differential equations will be most comfortable with this treatment.

It is currently the only book on the subject with exercises and a large number of examples.

From reader reviews:

Kathleen King:

The book Function Theory of Several Complex Variables (AMS Chelsea Publishing) gives you the sense of being enjoy for your spare time. You need to use to make your capable much more increase. Book can for being your best friend when you getting pressure or having big problem using your subject. If you can make studying a book Function Theory of Several Complex Variables (AMS Chelsea Publishing) to be your habit, you can get far more advantages, like add your current capable, increase your knowledge about several or all subjects. You are able to know everything if you like available and read a book Function Theory of Several Complex Variables (AMS Chelsea Publishing). Kinds of book are a lot of. It means that, science e-book or encyclopedia or other individuals. So , how do you think about this guide?

Marylou Arroyo:

What do you about book? It is not important to you? Or just adding material when you really need something to explain what the ones you have problem? How about your free time? Or are you busy individual? If you don't have spare time to do others business, it is make you feel bored faster. And you have time? What did you do? Everybody has many questions above. They need to answer that question since just their can do this. It said that about book. Book is familiar in each person. Yes, it is proper. Because start from on kindergarten until university need this specific Function Theory of Several Complex Variables (AMS Chelsea Publishing) to read.

Patricia Gagliano:

That book can make you to feel relax. This kind of book Function Theory of Several Complex Variables (AMS Chelsea Publishing) was colourful and of course has pictures around. As we know that book Function Theory of Several Complex Variables (AMS Chelsea Publishing) has many kinds or genre. Start from kids until youngsters. For example Naruto or Private investigator Conan you can read and think you are the character on there. So , not at all of book tend to be make you bored, any it offers up you feel happy, fun and rest. Try to choose the best book to suit your needs and try to like reading which.

Weston Brock:

Reading a reserve make you to get more knowledge from it. You can take knowledge and information originating from a book. Book is published or printed or created from each source that will filled update of news. On this modern era like now, many ways to get information are available for you. From media social similar to newspaper, magazines, science book, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you ready to spend your spare time to open your book? Or just searching for the Function Theory of Several Complex Variables (AMS Chelsea Publishing) when you required it?
