## **Internal Medicine: Evidence-Based Approaches to Common GI Conditions (Audio-Digest Foundation Internal Medicine Continuing Medical Education (CME). Book 56) Audio Digest**

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners – physicians and other healthcare professionals – with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice.

Audio-Digest Internal Medicine is specifically designed to provide the participant with state-of-the-art information on, including, but not limited to, the diagnosis and management of:

Gastroenterology  
Hematology and medical oncology  
Rheumatology  
Pulmonary and critical care medicine  
Endocrinology  
Infectious disease  
Nephrology and hypertension  
Cardiology  
Geriatric medicine

The goal of this program is to improve management of dyspepsia and irritable bowel syndrome (IBS). After hearing and assimilating this program, the clinician will be better able to:

- 1: Determine the probable etiology of a patient's dyspeptic symptoms.
- 2: Provide appropriate evidence-based therapy targeted at the source of a patient's dyspepsia.
- 3: Adhere to an algorithm that produces diagnosis and remission of uninvestigated dyspepsia with the lowest average cost.
- 4: Review the findings and recommendations of the American College of Gastroenterology (ACG) task force on IBS.
- 5: Apply the recommendations of the ACG task force to the management of patients with IBS.
