Fuzzy Multi-Criteria Decision Making: Theory and Applications with Recent Developments (Springer Optimization and Its Applications)

Fuzzy Multi-Criteria Decision Making: Theory and Applications with Recent Developments (Springer Optimization and Its Applications)

This work examines all the fuzzy multicriteria methods recently developed, such as fuzzy AHP, fuzzy TOPSIS, interactive fuzzy multiobjective stochastic linear programming, fuzzy multiobjective dynamic programming, grey fuzzy multiobjective optimization, fuzzy multiobjective geometric programming, and more. Each of the 22 chapters includes practical applications along with new developments/results.

This book may be used as a textbook in graduate operations research, industrial engineering, and economics courses. It will also be an excellent resource, providing new suggestions and directions for further research, for computer programmers, mathematicians, and scientists in a variety of disciplines where multicriteria decision making is needed.

From reader reviews:

Ivan Caputo:

Do you one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Try and pick one book that you find out the inside because don't evaluate book by its cover may doesn't work is difficult job because you are scared that the inside maybe not because fantastic as in the outside appearance likes. Maybe you answer could be Fuzzy Multi-Criteria Decision Making: Theory and Applications with Recent Developments (Springer Optimization and Its Applications) why because the wonderful cover that make you consider about the content will not disappoint a person. The inside or content is usually fantastic as the outside or perhaps cover. Your reading 6th sense will directly direct you to pick up this book.

Carl Carrillo:

Are you kind of busy person, only have 10 or perhaps 15 minute in your time to upgrading your mind proficiency or thinking skill possibly analytical thinking? Then you are having problem with the book than can satisfy your small amount of time to read it because this all time you only find reserve that need more time to be go through. Fuzzy Multi-Criteria Decision Making: Theory and Applications with Recent Developments (Springer Optimization and Its Applications) can be your answer mainly because it can be read by an individual who have those short free time problems.

Christopher Hill:

As a college student exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just tiny students that has reading's internal or real their pastime. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that looking at is not important, boring along with can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Fuzzy Multi-Criteria Decision Making: Theory and Applications with Recent Developments (Springer Optimization and Its Applications) can make you experience more interested to read.

Karen Johnson:

Book is one of source of expertise. We can add our understanding from it. Not only for students but in addition native or citizen want book to know the revise information of year in order to year. As we know those publications have many advantages. Beside we add our knowledge, also can bring us to around the world. With the book Fuzzy Multi-Criteria Decision Making: Theory and Applications with Recent Developments (Springer Optimization and Its Applications) we can take more advantage. Don't someone to be creative people? To become creative person must choose to read a book. Merely choose the best book that ideal with your aim. Don't possibly be doubt to change your life with that book Fuzzy Multi-Criteria

Decision Making: Theory and Applications with Recent Developments (Springer Optimization and Its Applications). You can more attractive than now.
