Informatics, Management and Technology in Healthcare (Studies in Health Technology and Informatics) J. Mantas, A. Hasman

Biomedical informatics is becoming increasingly important as healthcare organizations worldwide implement biomedical informatics applications as part of their continued effort to improve the effectiveness of patient care and the efficiency of service delivery. This book presents the full papers delivered at the 2013 International Conference on Informatics, Management and Technology in Healthcare (ICIMTH 2013), held in Athens, Greece, in July 2013. The scope of biomedical informatics is very broad, including a number of technologies such as imaging, sensors, biomedical equipment and even organ transplant technology. The 90 papers included here examine research and applications outcomes - from cell to population - in these diverse fields, and because management and organizational issues play an important role in the implementation phase of biomedical informatics applications, these topics are also covered as an integral part of the theme. The book will be of interest to all those whose work involves the development and use of biomedical informatics applications.

IOS Press is an international science, technical and medical publisher of high-quality books for academics, scientists, and professionals in all fields.

Some of the areas we publish in:

- Biomedicine
- Oncology
- Artificial intelligence
- Databases and information systems
- Maritime engineering
- Nanotechnology
- Geoengineering
- All aspects of physics
- E-governance
- E-commerce
- The knowledge economy
- Urban studies
- Arms control
- Understanding and responding to terrorism
- Medical informatics
- Computer Sciences

From reader reviews:

Stephen Williams:

Why don't make it to be your habit? Right now, try to prepare your time to do the important action, like looking for your favorite e-book and reading a e-book. Beside you can solve your trouble; you can add your knowledge by the reserve entitled Informatics, Management and Technology in Healthcare (Studies in Health Technology and Informatics). Try to make book Informatics, Management and Technology in Healthcare (Studies in Health Technology and Informatics) as your pal. It means that it can to get your friend when you really feel alone and beside those of course make you smarter than ever before. Yeah, it is very fortunated for yourself. The book makes you far more confidence because you can know every thing by the book. So , let us make new experience in addition to knowledge with this book.

Julie Tice:

The book Informatics, Management and Technology in Healthcare (Studies in Health Technology and Informatics) can give more knowledge and information about everything you want. So why must we leave the best thing like a book Informatics, Management and Technology in Healthcare (Studies in Health Technology and Informatics)? Some of you have a different opinion about publication. But one aim that will book can give many details for us. It is absolutely suitable. Right now, try to closer with your book. Knowledge or information that you take for that, you can give for each other; you may share all of these. Book Informatics, Management and Technology in Healthcare (Studies in Health Technology and Informatics) has simple shape however you know: it has great and large function for you. You can appearance the enormous world by wide open and read a publication. So it is very wonderful.

Barry Whitfield:

As people who live in the actual modest era should be update about what going on or facts even knowledge to make these keep up with the era that is always change and progress. Some of you maybe can update themselves by looking at books. It is a good choice in your case but the problems coming to anyone is you don't know what kind you should start with. This Informatics, Management and Technology in Healthcare (Studies in Health Technology and Informatics) is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and need in this era.

Charles Wagoner:

You may spend your free time to see this book this book. This Informatics, Management and Technology in Healthcare (Studies in Health Technology and Informatics) is simple to deliver you can read it in the park your car, in the beach, train as well as soon. If you did not have got much space to bring the printed book, you can buy the particular e-book. It is make you easier to read it. You can save the book in your smart phone. So there are a lot of benefits that you will get when one buys this book.
