NOTE: You are purchasing a standalone product; MyProgrammingLab does not come packaged with this content. If you would like to purchase MyProgrammingLab, search for ISBN-10:0134225392 /ISBN-13: 9780134225395. That package includes ISBN-10: 0133970787 /ISBN-13: 9780133970784 and ISBN-10: 0134254007 /ISBN-13: 9780134254005.

Introduction and Advancement in C++ Programming

Absolute C++ is a comprehensive introduction to the C++ programming language. The text is organized around the specific use of C++, providing programmers with an opportunity to master the language completely. Adaptable to a wide range of users, the text is appropriate for beginner to advanced programmers familiar with the C++ language.

The **Sixth Edition** covers everything from basic syntax to more advanced topics, such as polymorphism, exception handling, and the Standard Template Library, making it ideal for both beginner and intermediate programmers. Updated to reflect the most recent changes in the C++ language, *Absolute C++* teaches readers to become proficient in a widely used and important programming language.

Also Available with MyProgrammingLab™

This title is also available with MyProgrammingLab — an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts.

Students, if interested in purchasing this title with MyProgrammingLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

From reader reviews:

Michael Albin:

Nowadays reading books become more than want or need but also get a life style. This reading behavior give you lot of advantages. The huge benefits you got of course the knowledge the rest of the information inside the book that will improve your knowledge and information. The info you get based on what kind of book you read, if you want have more knowledge just go with knowledge books but if you want really feel happy read one using theme for entertaining like comic or novel. The Absolute C++ (6th Edition) is kind of book which is giving the reader unstable experience.

Bertha Chang:

This Absolute C++ (6th Edition) is great guide for you because the content that is certainly full of information for you who else always deal with world and also have to make decision every minute. This particular book reveal it details accurately using great coordinate word or we can state no rambling sentences inside. So if you are read this hurriedly you can have whole details in it. Doesn't mean it only provides straight forward sentences but tricky core information with beautiful delivering sentences. Having Absolute C++ (6th Edition) in your hand like obtaining the world in your arm, info in it is not ridiculous one. We can say that no guide that offer you world inside ten or fifteen minute right but this publication already do that. So , this really is good reading book. Hey there Mr. and Mrs. occupied do you still doubt that?

Danny Jarosz:

It is possible to spend your free time to see this book this e-book. This Absolute C++ (6th Edition) is simple bringing you can read it in the area, in the beach, train in addition to soon. If you did not possess much space to bring typically the printed book, you can buy the particular e-book. It is make you better to read it. You can save the actual book in your smart phone. Thus there are a lot of benefits that you will get when one buys this book.

Joseph Lewis:

What is your hobby? Have you heard in which question when you got learners? We believe that that issue was given by teacher on their students. Many kinds of hobby, Everyone has different hobby. And you also know that little person such as reading or as looking at become their hobby. You must know that reading is very important and book as to be the issue. Book is important thing to increase you knowledge, except your current teacher or lecturer. You discover good news or update in relation to something by book. Many kinds of books that can you go onto be your object. One of them is this Absolute C++ (6th Edition).
