European Human Rights and Family Law

Shazia Choudhry, Jonathan Herring

European Human Rights and Family Law Shazia Choudhry, Jonathan Herring

Traditionally, family law has been dominated by consequentialist/utilitarian themes. The most notable example of this occurs in the law relating to children and the employment of the 'welfare principle.' This requires the court to focus on the welfare of the child as the paramount consideration. Hitherto, the courts and, to a certain extent, family law academics, have firmly rejected the use of the language of rights, preferring the discretion and child-centered focus of welfare. However, the incorporation of the European Convention on Human Rights via the Human Rights Act now requires family law to deal more clearly with the competing rights that family members can hold. In addition, it is clear that, to date, the courts have largely ignored or minimized the different demands that the Human Rights Act imposes on the judiciary and, in particular, judicial reasoning. This book challenges that view and suggest ways in which the family courts may improve their reasoning in this field. No longer can cases be dealt with on the basis of a simple utilitarian calculation of what is in the best interests of the child and other family members. Greater transparency is required. The book clarifies the different rights that family members can hold and, in particular, it identifies ways in which it may be possible to deal with the clash of rights between family members that will inevitably occur. Whether this requires an abandonment of the utilitarian nature of family law, or a reworking of it, is a theme that runs throughout the book.
