Based on the key Montessori principle that children learn best through active experience, *Teach Me to Do It Myself* presents simple activities through which children explore and develop their skills. These skill areas include sensory perceptions, body coordination, language, understanding of numbers, and movement. This practical, color-illustrated parenting book is filled with activities and instructions for overseeing children as they carry out a variety of learning activities. Most activities will seem simple to parents, because once mastered, adults perform them automatically. However, toddlers experience a sense of accomplishment and self-worth when they learn to perform them independently. The many activities start with dressing and personal hygiene, then go on to include . . .

- Pouring activities
- Threading and sewing activities
- Peg activities
- Cutting with scissors
- Sorting activities by touch
- A color matching game
- Making musical scales with bottles and water
- Using alphabet tiles to make words
- Growing things in a window box
- Making finger puppets

Activities are described in detail and include checklists of needed items, as well as variations and related activities for children to try.
