QUADRILOGY (4 books in 1 volume) We are raised, by tradition, to trust our governments, and are convinced that they care about us. This, however, is a big mistake. Below the surface of official politics lies a complicated social and intellectual process that is taking place. The visible world leaders are mere puppets directed by an invisible power from behind the scenes. This geo-political power consists of the richest families on this planet. Together with the most powerful multinationals they rule and control most countries and coalitions. The true aim of this elite group is complete control of Planet Earth. This four-volume book is different from other books on the topic. It is a very unique publication and reading it will undoubtedly change the way you look at both history and the world today. It completely turns everything on its head. Once you read it, all of a sudden you will see the world around you in infrared. You soon see things which are simply not possible to view with the range of standard vision. The contents of this book is highly controversial and uncompromising. It describes a monster that we, in all our ignorance, have created together. It also serves to give us an idea of what's in store for the near future, so we can better prepare for what's coming our way. In 2006 the first French edition of this book was banned in France.
