Murder is the last thing on OBGYN Dr. Jillian Sanders' mind, but it's the first thing she must consider when her brother's ex fiancée turns up dead.

Up all night delivering babies, Dr. Sanders is summoned to the ER to see a young pregnant woman possibly in premature labor. Within minutes, the back doors of the emergency room burst open and paramedics rush in a late twenties Jane Doe, clinging to life after being run down while jogging.

A side-long glance is all it takes for Dr. Sanders to recognize the victim as her brother's former fiancée and long time family friend. Of course, it could be Kara's twin sister Sara, but based on a recent conversation with Kara—a conversation Dr. Sanders promised to keep secret against her better judgment— the chances of that are slim.

When resuscitation fails and the police write the incident up as an accidental hit-and-run, Dr. Sanders must tell all. And when her old flame, Detective Mike Daniels, the detective assigned to the case, appears to have other priorities, Dr. Sanders decides to investigate Kara's death on her own.

Throughout the novel, Dr. Sanders attempts to keep some semblance of her life prior to Kara's death. She continues to see patients, deliver babies and perform surgery. She also resolves a relationship with her ex husband and learns to love again, all the while somehow managing to maintain her sense of humor.

But as Dr. Sanders will soon discover, there is nothing funny about Kara's case and there is much to lose by getting involved. Not the least of which...is her life.
