Brian K. Reynolds

Gateway to Heaven: Marian Doctrine and Devotion, Image and Typology in the Patristic and Medieval Periods: Volume I: Doctrine and Devotion (Theology and Faith) Brian K. Reynolds

This first volume lays out all the Marian doctrines and their evolution in a clear and easy-to-follow format as well as providing two chapters on patristic and medieval devotion. (Doctrines discussed include Mary's divine motherhood and its impact on Christology; Mary's virginity -- before, during, and after the birth of Jesus; intercession and mediation, and Marian co-redemption.) It provides, for the first time, extensive citations from original works, both patristic and medieval, many of which have never appeared in English before. Thus, it gives a firsthand insight into the figure of Mary and her religious and cultural importance. The author's principal purpose is to focus on the internal dynamics of Christianity in the development of Marian doctrine and devotion so that, without pushing a Catholic or even Christian point of view, the book seeks to counter erroneous interpretations that are all too frequently found in well-known and oft-cited works.
